1. Getting Started

Create an account, log in, and learn your way around the app

1.1 Creating an Account

- 1 Open your browser and navigate to the CourtBook website.
- 2 Click **Sign Up** in the top navigation bar.
- 3 Enter your **full name**, **email address**, and a **password** (minimum 8 characters).
- 4 Optionally add your **phone number** — this helps staff contact you if needed.
- 5 Click **Create Account**. You will be logged in automatically.

Tip

Your email address is used to log in and receive booking notifications. Make sure it is correct.

1.2 Logging In

- 1 Click **Log In** in the navigation bar.
- 2 Enter your **email** and **password**.
- 3 Click **Sign In**. You will be redirected to your dashboard.

Forgot your password?

Click "Forgot password?" on the login page and follow the email link to reset it.

1.3 Navigating the App

Home / Venues

Browse all available venues and their courts from the main page.

My Bookings

View your upcoming and past bookings from the **Dashboard**.

Profile

Update your name and phone number from your account menu.

Log Out

Click your avatar in the top-right corner and select **Sign Out**.

2. Booking a Court

Customer guide — from browsing to confirmed booking

2.1 Browsing Venues & Courts

- 1 From the home page, click **Browse Venues** or select a featured venue card.
- 2 Click on a venue to view its courts, address, and facilities.
- 3 Click **Book Now** next to the court you want.

2.2 Selecting Date & Time Slots

The booking grid shows all courts at a venue for a chosen date. You can select multiple slots and even book multiple courts in one transaction.

- 1 Use the **date strip** at the top to scroll through the next 14 days and tap the date you want.
- 2 Each court shows its available time slots. Tap a slot to **add it to your cart**. Tap again to remove it.
- 3 You can select slots from **multiple courts** on the same date — they will be grouped into one booking.
- 4 When ready, tap **Proceed to Payment** in the sticky bar at the bottom.

Slot Legend	
Slot Colour	Meaning
 White border	Available — tap to select
 Green filled	Selected by you — in your cart
 Orange border	Available but peak pricing applies
 Grey / strikethrough	Already booked by someone else — unavailable

Peak pricing

— Some courts charge a higher rate during peak hours (e.g. evenings and weekends). The price is displayed on every slot tile so you always know the cost before confirming.

2.3 Checkout & Payment (PromptPay)

Review the **Order Summary** showing each slot and the total amount due.

- 2 A **PromptPay QR code** is displayed. Open your banking app and scan it, or enter the PromptPay number manually.
- 3 Transfer **exactly the amount shown** (tolerance $\pm \$2$). Do not round up or down.
- 4 Take a **screenshot** of the transfer success screen inside your banking app.

5-Minute Timer

— The checkout page shows a countdown. You must upload your payment slip **within 5 minutes**

of the transfer for automatic AI verification. The timer turns amber at 2 minutes and red at 1 minute remaining.

2. Booking a Court (continued)

Uploading your slip and receiving confirmation

2.4 Uploading Your Payment Slip

- 1 Tap the **Upload Slip** area on the checkout page.
- 2 Select the screenshot from your photo gallery or camera. Accepted formats: **JPG** , **PNG** , **WebP** .
- 3 Preview the image — make sure the **amount**, **date**, and **transfer status (โอนสำเร็จ)** are clearly visible.
- 4 Tap **Verify & Confirm Booking**.
- 5 Wait a few seconds while the AI checks your slip. The button shows a progress spinner.

What if the timer expired before I could upload?

The button changes to

Submit for Manual Review

. You can still upload your slip — the booking will be held as pending and confirmed by staff once they review it.

2.5 Booking Confirmation

If the AI successfully verifies your slip, you are taken to the **Booking Confirmation** page showing:

- "Booking Confirmed!" banner
- Booking reference number (e.g. **A1B2C3D4**)
- Venue, court, date, and time
- Total paid
- Link to view your full booking group (if multiple slots)

Slip rejected?

The AI checks that the amount matches, the slip shows today's date, and the transfer is complete (not pending). Common reasons for rejection:

- Wrong transfer amount
- Slip shows "pending" status instead of "success / โอนสำเร็จ"
- Slip is from a previous day
- Image is blurry or cropped

Upload a clear, complete slip and try again. If it keeps failing, contact venue staff.

3. My Bookings Dashboard

Track and manage all your reservations

3.1 Viewing Upcoming Bookings

Access your dashboard by clicking **My Bookings** in the navigation bar. The page is divided into two sections:

- **Upcoming** — bookings from today onwards (excludes cancelled)
- **Past Bookings** — historical records (last 20 entries)

Each row shows the court name, venue, date/time span, total price, and current status. Click any row to open the full booking detail page.

3.2 Booking Status Guide

Status	Meaning	Next Action
confirmed	Payment verified. Slot is reserved for you.	Show up and play! 🏏
pending	Slip submitted, awaiting verification (AI or manual).	Wait for staff confirmation. Usually instant.
cancelled	Booking was cancelled by staff or the system.	Contact the venue if this was unexpected.

3.3 Group Bookings

When you book multiple slots (different courts or consecutive times) in one transaction, they form a **Group Booking**. On the dashboard they appear as a single row with a **X slots** badge.

Click the row to open the Group Booking page, which shows all individual slots, each court's subtotal, and the grand total. From there you can also click **+ Add More Slots** to append additional courts to the same group.

One payment for the whole group

— When you pay for a group booking, a single slip covers all slots. The AI checks the total amount against the combined price of all selected slots.

4. Admin Panel — Overview

For venue owners and system administrators

4.1 Accessing the Admin Panel

- 1 Log in with your admin account credentials.
- 2 Navigate to `/admin` (e.g. `https://yoursite.com/admin`) or click the **Admin** link in the navigation menu.
- 3 If access is denied, your account does not have an admin role. Contact a system administrator.

Security notice

— The admin panel is protected by role-based access. Admin roles are assigned directly in the database by a system administrator and cannot be self-assigned.

4.2 Admin Roles

Role	Access Level	Scope
System Admin	Full access to everything	All venues, all bookings, all payments
Venue Admin	Venue-scoped access	Only bookings & payments for assigned venues

Venue admins see exactly the same admin interface but all data is automatically filtered to their assigned venue(s). They cannot see bookings from other venues.

4.3 Dashboard Overview

The admin dashboard (`/admin`) shows at-a-glance statistics:

Today's Bookings

Total number of bookings for the current day across all (assigned) courts.

Revenue

Total confirmed revenue for the current month.

Pending Payments

Number of PromptPay slips awaiting review. Click to jump to the queue.

Active Courts

Count of courts currently set as active and accepting bookings.

The left sidebar provides quick navigation to all admin sections: **Bookings**, **Pending Payments**, **Venues**, **Courts**, and **Schedule**.

5. Managing Venues & Courts

Set up your facilities, pricing, and operating hours

5.1 Adding a Venue

- 1 Go to **Admin** → **Venues** and click **+ New Venue**.
- 2 Fill in the **Venue Name**, **Address**, and optional **Description**.
- 3 Enter your **PromptPay ID** (phone number or 13-digit national ID). This generates QR codes for customer payments.
- 4 Set the **Platform Fee Rate** (default 5%). This is the percentage deducted from each booking as a service fee.
- 5 Toggle **Active** to make the venue visible to customers.
- 6 Click **Save Venue**.

5.2 Adding Courts

- 1 Go to **Admin** → **Courts** and click **+ New Court**.
- 2 Select the **Venue** this court belongs to.
- 3 Enter a **Court Name** (e.g. "Court A", "Main Hall").
- 4 Set the **Hourly Rate (฿)** — this is the base off-peak rate.
- 5 Toggle **Active** and click **Save Court**.

5.3 Setting Operating Hours

Go to **Admin** → **Schedule**. Select a court and configure its hours per day of the week.

Field	Description	Example
Open Time	First slot starts at this time	08:00
Close Time	Last slot ends at this time	22:00
Slot Duration	Length of each booking slot (minutes)	60

Days without an entry in the schedule are treated as **closed** — no slots are generated and the court appears as unavailable.

5.4 Peak Pricing

Each day's schedule can have an optional **peak window**. During peak hours a higher rate applies automatically.

Field	Description
Peak Start / End	Time range when peak pricing applies (e.g. 17:00 – 21:00)
Peak Hourly Rate (\$)	Higher price per hour during the peak window

Slots that overlap the peak boundary are split automatically — the customer pays the correct prorated amount for each portion.

6. Managing Bookings

View, filter, walk-in book, and cancel reservations

6.1 Viewing All Bookings

Go to **Admin** → **Bookings**. The table shows all bookings with these columns:

Column	Description
Ref	First 8 characters of the booking ID
Customer	Full name and phone number from their profile
Court / Venue	Which court and venue the booking is for
Date & Time	Booking date and slot time range
Total	Amount charged for this slot
Status	confirmed / pending / cancelled
Slip	 Slip button — click to view the payment image in a popup
Action	Cancel button (for non-cancelled bookings)

6.2 Filtering & Searching

Use the filter bar above the table to narrow down results:

- **Status** — filter by confirmed, pending, cancelled, or all
- **Date** — show bookings for a specific date only

The table loads the latest 100 bookings by default, ordered newest first.

6.3 Walk-in Bookings

Walk-in bookings are for customers who pay cash on-site. They are created directly by staff and confirmed immediately — no payment slip required.

- 1 Click  **Walk-in Booking** at the top of the Bookings page.
- 2 Select the **venue**, **court**, and **date**.
- 3 Available time slots are loaded automatically. Select one or more.
- 4 Optionally enter **customer name** and **phone** for your records.
- 5 Click **Confirm Walk-in**. The booking is immediately set to **confirmed** with payment method "Cash".

6.4 Cancelling a Booking

Cancellations are permanent.

Once a booking is cancelled it cannot be restored. The slot becomes available for other customers immediately.

To cancel: click the **Cancel** link in the Action column and confirm the dialog prompt. Cancelled bookings remain visible in the table with a **cancelled** badge for record-keeping.

7. Payment Management

Review PromptPay slips, approve payments, and use AI verification

7.1 Pending Payments Queue

Go to **Admin** → **Pending Payments**. This page shows all bookings that:

- Used **PromptPay** as the payment method
- Have a **pending** payment status

Each card shows the payment slip image (if uploaded), customer details, court, date/time, and amount. Cards are ordered newest first.

Auto-cleared

— Most slips are verified automatically by AI within seconds of submission. Only slips that failed AI verification (or were submitted after the timer expired) appear in this queue.

7.2 Approving a Slip Manually

- 1 Click the slip image to open it full size. Verify that the amount, date, and transfer status are correct.
- 2 Click ✓ **Approve** to confirm the payment. The booking status changes to **confirmed** and the customer's slot is secured.
- 3 Alternatively, click ✗ **Reject** if the slip is invalid (wrong amount, fake, or from a different transaction). The booking stays as pending for re-submission or manual follow-up.

7.3 AI Re-verification

If a slip looks valid but was rejected automatically, use the  **Re-verify AI** button to run a second AI check.

- 1 Click  **Re-verify AI** on the pending payment card.
- 2 Wait a few seconds while the AI analyses the slip image.
- 3 The result appears inline:
 - ✓ **AI approved** — booking is automatically confirmed.
 - ✗ **AI rejected** — reason is shown; you can still approve manually.

Admin re-verify vs customer verify:

The admin AI check does NOT enforce the 5-minute time window — it only checks the date (today) and the correct amount. This allows reviewing slips that were submitted hours earlier.

7.4 Viewing Slips in Bookings Table

The main **Bookings** table also has a **Slip** column. Click the  **Slip** button on any row to open a popup showing the payment image. This works for both pending and confirmed bookings, making it easy to audit historical payments without leaving the bookings page.

Click

➤ **Open full size**

in the slip popup to view the original high-resolution image in a new tab.

8. Troubleshooting

Common issues and how to resolve them

8.1 Customer Issues

Problem	Likely Cause	Fix
Cannot log in	Wrong password or email	Use "Forgot Password?" link on the login page
Slot I want is greyed out	Already booked by another customer	Choose a different time slot or date
QR code doesn't scan	PromptPay ID not configured for this venue	Enter the PromptPay number manually in your banking app
Slip rejected — wrong amount	Transferred a different sum	Transfer the exact amount shown. Contact staff if already transferred.
Slip rejected — pending status	Screenshot taken before transfer completed	Wait for the transfer to complete (โอนสำเร็จ) then screenshot again
Timer expired before upload	Took longer than 5 minutes	Upload anyway — click "Submit for Manual Review". Staff will confirm.
Booking stuck at "pending"	AI could not process slip / submitted after timer	Wait for staff to review, or contact the venue directly

8.2 Admin Issues

Problem	Likely Cause	Fix
Access denied to /admin	Account role is not admin or venue_admin	Ask a system admin to set the correct role in the database
Walk-in form shows no courts	No courts assigned to your venue	Add courts in Admin → Courts, then assign them to your venue
No slots appear in walk-in	Operating hours not set for that day	Configure schedule in Admin → Schedule for the selected court & day
Slip shows "No slip image stored"	Customer submitted slip but upload failed	Ask customer to re-submit. Check storage bucket settings.
Pending payments queue is empty but bookings are pending	Pending bookings used cash (not PromptPay)	Walk-in cash bookings don't appear in the payments queue — they're already confirmed

8.3 Payment Verification Issues

Problem	Cause	Fix
 Re-verify AI returns error	Gemini API key not configured or quota exceeded	Visit <code>/api/admin/test-gemini</code> to diagnose. Approve manually.
AI always says "slip older than 5 minutes"	Using old customer verify endpoint, not admin endpoint	Use the  Re-verify AI button — admin endpoint has no time window
Correct slip rejected by AI	Image quality, unusual bank app format, or Buddhist Era date	Click ✓ Approve manually. The AI is advisory, not mandatory.

9. Reference

Status codes, roles, and quick-reference information

Booking Status Reference

Status	Payment Status	Meaning	Who Sees
confirmed	paid	Slot reserved, payment verified	Customer & Admin
pending	pending	Slip submitted, awaiting AI or manual review	Customer (read) & Admin (action)
confirmed	paid	Walk-in cash booking, confirmed at creation	Admin only
cancelled	any	Booking cancelled by admin	Customer & Admin

Payment Methods

Method	Icon	Flow	Confirmation
PromptPay		Customer scans QR → transfers → uploads slip → AI verifies	Automatic (AI) or manual
Cash		Staff creates walk-in booking	Immediate, no slip needed

Admin Navigation Quick Reference

URL	What it does
<code>/admin</code>	Dashboard with stats overview
<code>/admin/bookings</code>	All bookings table with filters
<code>/admin/bookings/walkin</code>	Create a cash walk-in booking
<code>/admin/payments</code>	Pending PromptPay slip review queue
<code>/admin/venues</code>	Manage venues (add / edit / deactivate)
<code>/admin/courts</code>	Manage courts within venues
<code>/admin/schedule</code>	Set operating hours & peak pricing per court
<code>/api/admin/test-gemini</code>	Diagnostic: check AI API key & model status

Requirement	Detail
File type	JPG, PNG, or WebP
Max file size	~4.5 MB (base64 limit: 6 MB)
Must show	โอนสำเร็จ (success), correct amount, today's date
Date format	Thai Buddhist Era (e.g. 10/05/68) or Gregorian — both accepted
Time window (customer)	Transfer must be within last 5 minutes
Time window (admin reverify)	No time window — only today's date is checked
